DETAILED ACTION

Response to Amendment

1. The Examiner has carefully considered Applicant's remarks dated 09/20/05. Applicant's traversal main is that the prior art does not teach all the features in a "single" base textile layer. This argument is not commensurate in scope as Applicant's claims are open-ended and use words such as "comprising" and "including" and does not preclude the use of additional layers or structures to arrive at the same invention. It Applicant feels this is the gist of their invention then it needs to be claimed as such. Therefore, the prior art applied against Applicant's claims is believed to teach all the claimed features and adequately provide motivation to combine the teachings and thus the previously made rejections are maintained. It should also be noted that both Applicant and the Examiner were discussing claims 42-68, when in actuality it was supposed to be claims 42-66.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 42-66 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 5445863 issued to Slagle et al as set forth in the previous office action.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory

Art Unit: 1771

period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
